RALSTON, PRESIDENT OF BANK OF CALIFORNIA

COMMITS SUICIDE!

IMMENSE RIOT IMMINENT IN SAN

FBANCISCO:

It is said that Brown the Cashier, and Clark, the paying teller, have both shot themselves.

California street, from Kearney to Sansome, is a living mass. The crowd surge hither and thither and a riot is imminent at any moment. If it comes God alone can tell the re-

Jim Keene, the broker, shot at Sharon, but missed him. His life for a few days will be one of constant terror.

Advices from San Francisco late last night were to the effect that W. C. Rulston, President of the Bank of California, and --- Clark, the Paying Teller, had both committed suicide. Ralston went as usual to the Nortu Beach on horseback to take his daily ride. Some boys on the shore noticed that he disrobed on the boach instead of in the bath house; also that he took a small phial from his pocket, swallowed the contents and swam out in the ourrent. After exercising a few moments he returned to the shore, then swam out again and sank. When he sank the alarm was at once raised and assistance reached him as he was sinking the second time. He was brought to chore, and every effort made to resuscilate him, but without avail; the fatal potion had taken too firm a hold and in a few moments W. C. Raiston "King of California street" was no more. No particulars can be learned of the suicide of Clark, the paying teller. The excitement is interse.

Armed crowds surround the Call and Balletin and Alto offices, threatening their destruction, and although not official it is stated that several shots have been fired into these offi-

The military have been called.

At Virginia City the excitement is also intense, but there is nothing wrong there, and no trouble apprehended. Lots of folks are on the street but everything is quiet.

whole truth-now there are rumors upon rumors out.

When will the end come?

The season is about a month hehind, but those items about the rays of the sun and a milk our setting the to a barn, and a thunderbolt stanning an old woman and melting the kuitting usedles she held in her hands, turned up this year with com-mendable promptes are nover behind time.

THE FINANCIAL CRISIS.

Flood & O'Brien to Assume all Liabilities of the Bank of Cal.

OTHER BANKS SUSPEND.

THE WORST OVER.

We take it that the financial crisis is the leading topic of conversion throughout the entire Coast. Other bank suspensions are appounced and it is now safe to assert that the Bank of California will never resume, but that all of their immense business will be transferred to the new Nevada Bank of Flood & O'Brien, Mackey & Fair. The following telegram was SHARON SHOT AT!! received here at 4:80 P. M. yesterday: CARSON, Aug. 27.

C. T. BENDER:-Mr. Rico says he has good information from below that Flood & O'Brien have agreed to assume the liabilities of the Bank of California for their new bank.

D. A. BENDER.

The subjoined was also received hero yesterday afternoon: San Francisco, Aug. 27.

It is stated on supposed good authority that some half dozen heavy stockbrokers are likely to go down. No names given. No commercial failures are yet re-

ported though a squeeze is expected next Monday—collection day. The savings banks during the day

have been doing their usual business -deposits in same being larger than the disbursements. There is no excitement on that line.

The Merchant's Exchange Bank closed this morning. The Directors have prepared the following notice for the afternoon papers. "In consequence of the excitement and disappointment in getting coin the Directors deem it for the best interests of all not to open our doors for the present." The Secretary, states the bank has \$100,000 in coin on hand. Amount of liabilities on deposit \$800,000, but against this may be offset over \$400,000 in notes. The bank is perfectly solvent—the only trouble a lack of coin.

San Francisco Bank, but Manager Latham asserts his ability to meet all demands without trouble.

Crowds still surround the Bank of California and the suspended National Gold Bank and Trust & Co, Also the Savings Bank, but the action of the office of the latter institution last night effectually prevents a

Excitement great.

Brechen's \$100,000 salary is not so easily raised after all. He has been paid \$30,000 of it, but that was a surplus left over from the sale of the pews in January, and covers the regular \$20,000 salary. Bosides this \$30,000 more has been promised, but the remaining \$40,000 is not in sight." All the wealthy members have been bled, and Plymouth, is in deep distress about it. In the meantime J: B. Ford & Co., publishers of Beecker's works, are offering to compromise with their creditors at 30 cents on tho dollar.

The searcity of fractional currency in the East is accounted for by the lack that for the most two Yosterday was truly a veritable fifty-cent notes have been printed. The issue of several counterfeits of We shall probably hear to-day the that denomination caused the withdrawal of the plate. It is probable that now fifty cent notes will be issued shortly, which will make good the deficiency.

THE SEMINARY QUESTION.

Last evening quite a number of our citizens assembled as per call of Bishop Whitaker, at the school house. The meeting was organized by electing Gen. O. Evans President and Orvis Ring Secretary. The Bishop then addressed the meeting and showed all the advantages and benefits accruing. Mr. Lowis moved that as there had been sevoral sites offered that all waive preferences, let each proposed donntor set forth the merits of his land; that the Bishop be empowered to select the site, and that all endorse his action heartily. Carried unanimously. A Committee of five from Reno were appointed to solicit subscriptions as follows: B. F. Leete, Gon. O. Evans, W. R. Chamberlain, A. J. Hutch and C. T. Bender; Auxiliary Committee-F. A. Tritle and O. W. Whitaker of Virginia, S. P. Kelley of Carson, C. C. Stephenson of Gold Hill.

Nobbx.-Nick- everybody knows Nick -Froyer has got him a bran new coach, and now he trots the traveling public "over the hills and far away" to Poevide. His turnout looks nice, and the coach runs easy and quietly. It is gaily painted, and lettered thusly: "U. S. Mail, No. 1," "Poe City." When the furnaces turn out big bars of filthy lucre Nick will have lots of travel, which will be good.

LIGE. - Mr. H. Wright, an old rancher, informs us that he has discovered a very simple way for saving cabbages from being destroyed by lice. It is simply to throw dry dirt over the affected heads, and it not only kills the lice, but saves the cabbage. He says he will save all of his 20,000 heads of cabbage by this, which is certainly easily tried.
